Your Inner Algorithm

The EPIC Way to Lead Your Team Through the AI Era · 60 minutes

AI can replicate what your leaders do. It can never replicate who they are. Through four true stories, Ajitha walks the room through each layer of the EPIC Leadership Operating System™ and hands leaders a 4-step method to move from reaction to conscious action.

KEY TAKEAWAYS

- **Uncover** what is really creating the Knowing-Doing gap, and close it
- **Understand** the four layers behind every decision, and name the one running the show when stakes are highest
- **Apply** a 4-step method to move from reaction to conscious action in real time
- **Name** the emotion behind your AI uncertainty, and use it as data
- **Experience** the one thing AI can never replicate, live in the room

WHAT AUDIENCES SAY

> "The session was about courage and getting past the limitations we impose on ourselves and allow others to impose on us by conforming to the expectations of others."
>
> Attendee, 19th National Women's Business Leadership Conference

> "The instructor creates an engaging environment that encourages everyone to contribute. I learned a great deal, particularly about improving my own processes using the Architect, Translator, Doer Model."
>
> William (Bill) J. McGlynn, HQ Site Services Branch Chief, FEMA

> "This training is very much needed and extremely helpful for shifting our long-held beliefs."
>
> L'Oréal Americas, workshop participant
